**Description:** This top quality photo inkjet paper has a quality photo coating for high grade natural colour prints of graphic pictures, presentations and photos. The paper is instant dry, is smudge resistant and provides good colour density and excellent image sharpness. This paper is compatible with a large range of dye and pigment digital printing systems, and is the most ideal product for users who need top quality photographic re-productions.

**Features:** Extremely quick drying, dye and pigment ink compatible, good colour density, excellent image sharpness, smudge resistant, lamination not necessary, easy handling.

**Applications:** Photography, portraits, posters, graphic art reproductions, exhibition graphics, indoor and outdoor signage.

### Physical Properties:

Weight	170 g/m <sup>2</sup>	±7
Caliper	174 μm	±5
Curl at 23 °C, 50% RH	0 mm	±8
Gloss (Tappi) 75°	50	±5
Opacity	93,0%	
Colour (CIE Lab) D50 /2°	L* 95.59	±0.5
	a* 0.92	±0.5
	b* -7.78	±0.8

**Printing :** For optimum results select the best possible print settings. Advised Driver / panel settings: Satin Photo Paper 170gsm / SatinPhoto 170g

**Finishing:** To add surface protection from dirt, abrasion and gas-fading, lamination is recommended. Although ink drying is virtually immediate, it is still recommended to allow a waiting time of approximately 3 hours before lamination. In order to prevent moisture ingress and paper splitting, lamination with a 5-6 mm encapsulated edge is also recommended. Laminate must be evenly applied to the print in order to avoid curling. Both hot and cold lamination is possible.

### Ideal Storage Conditions:

Store paper only in original boxes, out of direct sunlight and under normal climatic conditions ( 23 °C, 50% RH ) until ready to use. Allow material to adapt to room conditions before use. Papers can absorb moisture in humid conditions or lose moisture in low humidity conditions. Highly humid conditions make the ink drying time longer and this could interfere with proper laminate adhesion.

### Shelf Life:

2 years from shipping date when stored under ideal conditions (see above )
